Vet Inspection

- ALL Livestock (except for dogs, bottle animals, and Clover Kid's animals) are required to be inspected by a veterinarian before being allowed to enter the fairgrounds and unload. Vet papers will not be accepted. All livestock must attend the vet inspection.
- No animals are allowed in the barns until they have passed through vet inspection.
- After you have passed vet inspection, you will be given an unload pass for the barns.
- Livestock trailers and trucks will enter through the gate west of the Events Center going south or all trailers, including goosenecks, will turn on 205th Avenue and come in through the west entrance to the fairgrounds. Weather will determine which route will be used. Directions will be announced before the scheduled times for vet inspection.
- All blankets and coverings must be removed from your livestock before the vet reaches your trailer for vet inspection.
- If an animal does not pass vet inspection, it will be marked with a non-washable marker and must remain on the trailer when unloading other animals. Once all animals that have passed vet inspection are unloaded, the disqualified animal must be removed from the fairgrounds.
- Vet inspection for poultry and rabbits will be in the grassy area north of the Small Animal Building. No animal will be allowed in the barn until it has gone through vet inspection.
- ALL SPECIES must arrive during their designated veterinary inspection time. **MUST BE IN VETERINARY INSPECTION LINE BY 8AM, WEDNESDAY, JULY 15, AND BY 7AM, THURSDAY, JULY 16.**
- Sheep must arrive show ready or rough sheared with less than ¼ inch of wool.
- Hogs will unload on the north end of the hog barn and cattle will unload under the breezeway.
- **Veterinarian decision is final.**
- **No animal may leave the fairgrounds until its release time.** This means that once the animal has passed vet inspection, the animals are unloaded and left on the grounds until check-in throughout the duration of the fair.
- The Fair Board is asking that during vet inspection time, that only animals be unloaded at the barns to help reduce congestion and move everyone through faster. We are asking everyone to **bring in tack before vet inspection.** All pens will be assigned and marked, and the barns will be open once the barn superintendents have all assignments done.

IOWA EXHIBITOR YOUTH CODE OF ETHICS

Youth are expected to be sincere, honest and act in sportsmanlike ways at all times. Youth represent the entire program and their behavior reflects on their parents, leaders, club and the entire youth program. All adults involved with the youth program, leaders as well as parents, are expected to set positive examples and serve as positive role models by what they say and do. Any youth who breaks the Code of Ethics or allows another person (adult or peer) to talk them into violating the Code of Ethics agrees to forfeit all prizes, awards and premiums. The youth may also be prohibited from exhibiting at this and future exhibitions including the Iowa State Fair and other county, state or regional exhibitions.

Youth agree to follow these guidelines:

1. I will do my own work, appropriate for my age and physical and mental development. This includes research and writing of exhibit explanations, preparing exhibits (such as sewing, cooking, refinishing, etc), care and grooming of animals, etc. Adult assistance should help guide and support me, not do it for me.
 2. All exhibits will be a true representation of my work. Any attempt to take credit for other's work, alter the conformation of animals, or alter their performance is prohibited. Copyright violation or allowing others to complete your exhibit is considered misrepresentation and is prohibited.

 7. My animal's appearance or performance shall not be altered by any means, including medications, external applications and surgical procedures. Any animal that is found to have changed its appearance or its performance shall be disqualified from the show, and have penalties assessed against the exhibitor, parent and/or guardian by the management of the fair or exhibition.

It is presumed that the sample tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the exhibitor, parent and/or guardian to prove otherwise.

INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS (IAFE) CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada. The following is a list of guidelines for all exhibitors and all livestock in competitive events:

- A. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
- B. Owners, exhibitors, fitters, trainers or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
- C. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
- D. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood or other substances from the animal to be used in testing. Animals not entered in an event which cumulates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internal or externally. It is presumed that the sample of urine, saliva, blood or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
- E. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal is prohibited. F. The use of showing and/or handling

practices or devices such as striking animals to cause swelling, using electrical contrivance or other similar practices are not acceptable and are prohibited.

- G. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives or show officials before, during or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
- H. No owner, exhibitor, fitter, trainer or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
- I. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
- J. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expos and any special notices to members.
- K. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state or provincial statutes, regulations or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions

Iowa 4-H Requirements Regarding Clover Kids (K-3) Members Working with Animals

Introduction

Iowa State University Extension and Outreach and the Iowa 4-H Youth Development Program supports safe, educational, and developmentally-sound small animal activities for children in Kindergarten through third grade. Educational opportunities for animal subject matter and interaction with animals can contribute to the learning objectives of the Iowa 4-H Clover Kids program. However, for safety and liability reasons, as well as developmental appropriateness, the restrictions outlined in this document are necessary.

Requirements

Members of the Iowa 4-H Clover Kids program may exhibit or showcase their work in a noncompetitive event or activity. All Clover Kids animal exhibitions must be cooperative and not competitive. Clover Kids are not eligible to receive premium funds as a result of exhibition. Clover Kids may receive participatory ribbons, but may not receive regular competitive purple, blue, red, or white 4-H fair/exhibit ribbons.

Developmentally-appropriate small animal exhibits for children in grades K-3 include pets, rabbits, poultry, sheep, goats, and bucket bottle projects (calf, sheep and goat).

Safety requirements for all calf, sheep and goat livestock species are as follows:

- Animal must remain on a halter at all times
- Animal must be born in the calendar year of the show

Animal species specifically excluded from K-3 exhibition opportunities are swine, equine, camelids (llama and alpaca), beef (other than bucket bottle), and dairy (other than bucket bottle).

Rationale

The physical and emotional safety of children is a prime consideration when working with animals. Special procedures, such as joint leading and/or close proximity of adults, need to be employed to promote and protect children's safety. In general, the handling of all animals requires discipline and motor skills that have yet to be fully developed in most K-3rd grade children, and when coupled with animals' unpredictable behavior, does not provide optimal safe educational environments.

Insurance coverage (accident or liability) for Clover Kids (K-3) programs involving small animals is contingent upon conducting developmentally-appropriate programs that are in compliance with Iowa State University, Iowa State University Extension and Outreach, and Iowa 4-H policies, regulations, and guidelines. Contact your local county ISU Extension and Outreach office to learn more about securing insurance coverage for Clover Kids programs.

Health Requirements Livestock

The Clarke County Fair will follow requirements provided by the Iowa Department of Agriculture and Land Stewardship. This publication can be found on the Iowa agriculture website <https://iowaagriculture.gov> or the Clarke County Extension website <https://extension.iastate.edu/clarke>.

4. An award will be awarded to the animal with the highest rate of gain in each species.
5. Winners will be recognized in the arena at a designated time.

4. The ultrasound evaluation will be conducted at announced time.
5. The data will be measured on the live animal using ultrasound technology.
6. Winners of sheep, goat, and swine ultrasound will be recognized in the show ring during their designated show date.

Herdsmanship Contest

All 4-H and FFA members exhibiting livestock at the Clarke County Fair are automatically entered in the Herdsmanship Contest.

Judging

- Herdsmanship will be judged twice daily throughout the duration of the fair.
- Judges will consist of Fair Board members and selected community representatives
- The decisions of the judges are final.

Requirements

- Stall cards or name plates must be properly displayed in order for an exhibitor to receive a score for that judging period.
- Exhibits must be maintained by the exhibitor and reflect appropriate standards of animal care, cleanliness, and responsibility at all times.
- Clubs are highly encouraged to decorate their exhibit area to demonstrate pride, creativity, and fair spirit. While decorations are optional, they may contribute to judges' overall impression in scoring.

Scoring

Based on the following criteria: Cleanliness of animal, organization of pen/stall/area, availability of appropriate feed/water/exhibitor responsibility and cooperations

- Failure to meet minimum animal care standards may result in a score of zero for that judging period.
- Judges may give additional consideration for overall presentation, including decorations, but animal care and exhibitor responsibility remain the primary factors.

Awards

Individual Species Herdsmanship Awards

- Points earned by exhibitors will be totaled across all judging periods.
- One Individual Herdsmanship Award will be presented for each species.
- The exhibitor with the highest total score within each species will be declared the winner.

Overall Club Herdsmanship Award

- Club scores will be calculated by averaging the total herdsmanhip points of all participating members within each 4-H club or FFA chapter.
- The club with the highest average score will receive the Overall Club Herdsmanship Award.
- Clubs that decorate their exhibit areas are encouraged to do so, as presentation may positively influence the judges' overall impression.

Showmanship Rules

1. Open to any species exhibitors who are 4th-12th grade.
2. A member can win only once in each division.
3. Junior Showmanship will be grades 4th – 6th.
4. Intermediate Showmanship will be grades 7th – 8th.
5. Senior Showmanship will be grades 9th – 12th.
6. Winners Showmanship: If you have won Showmanship in your age group, (Junior, Intermediate or Senior) you may show in Winners Showmanship.
7. Once you complete an age group and move to the next one, you must win Showmanship in that age group to be able to show in Winners Showmanship.

For example, you win Junior Showmanship in 5th grade, you would be eligible for Winners Showmanship that year and also while in 6th grade. Once you enter 7th grade, you must win Intermediate Showmanship to be able to show in Winners Showmanship again. Once you enter 9th grade, you must win Senior Showmanship to be able to show in Winners Showmanship.

Mateer Award of Excellence

The Mateer Award of Excellence in Achievement is sponsored/awarded by the Mateer Family during the Livestock Auction. This award will be presented to an outstanding exhibitor for the year overall—including livestock, non-livestock projects, and participation.

Sale Day Information

1. Fair check-in weight will be the sale weight.
2. Each exhibitor may sell only market animals (two beef, two meat goats, two sheep, and two swine through the sale. Champions are included in this number.) These animals will be sold by the pound. Market ewes, gilts, and heifers may be included in this limit, but must be sold to the highest bidder. Small animal exhibitors can sell only two units (i.e., a rabbit pen is sold as one unit—the rabbits are not sold individually. Poultry that is entered two in a class sell as one unit, not individually.) Only commercial meat poultry and rabbits will go through the auction.
3. Any exhibitor having market animals above the 2-2-2 limit may sell to the buyer at the base price. Please notify your Fair Board Supervisor after the show.
4. Animals sold at the auction will be the responsibility of the member until they are delivered to the purchaser or their representative.
5. All market hogs will be subject to normal price breaks
6. Awards and drawings will be held prior to the sale starting at 4:00pm in the Show Barn. The Livestock Auction will start immediately at 5:00 PM. Sale order will be announced at a later date.
7. The Beef Superintendents will establish a market “floor price” per cwt for market beef to allow for the bidding to begin. The “floor price” is to start the bidding only and has NO relationship to the final carcass value or the amount of money the exhibitor receives for their market beef animal. The livestock sale proceeds will be collected and paid out by the Clarke County Fair Board. If an exhibitor sends an extra animal to pack, they will receive one check for its value. The price for the beef carcass and the amount of money the exhibitor receives (minus expenses) for their market beef animal will be determined by the market grid. These new changes are subject to change at the Fair Board attempts to establish a consistent market outlet for the market beef.
8. **Animals offered for sale in the Livestock Auction are considered to have changed ownership even if bought back by the original owner or if the owner refuses a bid or says “No Sale!” All animals offered for sale are terminated as 4-H or FFA projects. An animal should not enter an auction ring, even if only the ribbon is being sold.**
9. **Overall Grand Champion Market and Reserve Overall Grand Champion Market animal exhibitors, if they choose, may participate in the Livestock Auction. It will be done as a Ribbon sale, where only the exhibitor will go through the sale ring carrying their banner. This means it will be done as a premium sale, where the exhibitor will receive the difference between the sale price and the floor price of that species.**
10. An exhibitor cannot sell a market animal in the sale and then pull it to take it home or elsewhere. A market animal can be privately purchased in the sale and taken wherever, but the full price must be paid.
11. All exhibitors are encouraged to have Premise Identification for their animal and have available at the fair if the animal is to be sold in the sale and into the public food market (go to pack). Premise

ID may or may not be needed for private sales. Premise ID is a directive of IDALS and USDA. At this time the Premise Identification is still optional and not required.

12. Only one pie per 4-H club will be allowed for the pie auction. Money from the pies go to the 4-H general fund.
